## 2.0 ARMY CONSTRUCTION AND PAINTING

### 2.1 Army Construction

Each player on a team will select an army up to 1000 points using the rules as laid out under Muster Army in the Grand Tournament 2022 Mission Pack (War Zone Nachmund) as well as from the Core Rulebook.

When building your army, use all the most up to date Warhammer 40,000 rules found in the following Games Workshop publications with the cut off date being one week before the event:

- ☒ Codexes
- ☒ Warhammer 40,000: The App
- ☒ Campaign Books
- ☒ Chapter Approved: Grand Tournament Mission Pack 2022
- ☒ White Dwarf
- ☒ FAQs, errata, and beta rules found via [www.warhammer-community.com/faqs](http://www.warhammer-community.com/faqs)

Each team member will need to fill out and submit a Battle-Forged Army Roster as detailed on page 251 of the Core Rulebook.

Army lists should be presented in an easy to read format (such as army lists exported from BattleForge in Warhammer 40,000: The App), including all relevant wargear and unit upgrades.

Take into account the following points when constructing your armies:

- ☒ Players cannot share points
- ☒ Reinforcement points apply to a player, not to the whole Team. For example, if player A has 200 reinforcement points set aside, player B does NOT have access to them.
- ☒ An individual player's Faction may be different from their teammates. There is no requirement for the two armies to be historically able to "ally" with each other. You should use this as an opportunity to try and find new and unique combos and abilities that you wouldn't normally be able to do! .
- ☒ The same Datasheet cannot be included in both players' armies. *Eg. Elliot and Katie have both chosen to attend with Space Marine armies. Elliot has chosen to take a Tactical Squad as part of his 1000 points. This means Katie cannot take a Tactical Squad within her 1000 point army.*
- ☒ Any Unique units can only be included once in a team.
- ☒ Each player chooses a Warlord for their individual 1000 point army.
- ☒ Each Relic and Warlord Trait is unique and can only be taken once per team.

### 2.1.1 Doubles Gameplay Rules

With there being two players on each side, some aspects of a mission or gameplay will change. Here are the key changes to keep in mind:

- ☒ During your games, change all references of “player” to “team”. So anything that is once per player is once per team etc.
- ☒ Each team has a pool of Command Points. These Command Points are spent as a team.
- ☒ The same Stratagem cannot be used more than once during the same phase.
- ☒ Psychic Focus: As each psychic power can be attempted only once per turn, this would also apply to the whole Team.
- ☒ Deployment: During deployment teams alternate deploying, and each team deploys two units (one per player) to speed up set up.
- ☒ Teams will select their Secondary Objectives as a team. You should select one person from each team to be the overall Warmaster for the team. If at any point during the game, the team cannot decide in what order to carry out actions, the Warmaster has the final say on the order of events.
- ☒ At the start of each game players should assign one eligible model to be the Warlord. If a mission rule or objective (primary or secondary) requires a Warlord unit, only the Warlord unit selected at the start of the game is eligible for this rule or objective.
- ☒ Army/Faction specific secondaries are not allowed to be selected at the event.
- ☒ Any reference to ‘friendly’ models or rules that are not keyword dependent apply only to your 1000 point force. For example you can’t put your team mates infantry models into your transport.

### 2.2 Modelling and Painting

Playing exciting, atmospheric games with finely detailed, painted miniatures is intrinsic to the Warhammer experience. With this in mind, all miniatures in your collection must be Games Workshop or Forge World miniatures (excluding basing or scratchbuilt components), and be fully assembled and painted to at least a Battle Ready standard. Below are some examples of models painted to a Battle Ready standard. (More information on Battle Ready can be found at [Warhammer-Community.com](http://Warhammer-Community.com))

#### CONTRAST METHOD

#### CLASSIC METHOD

Each model must accurately represent its entry on your army roster (What You See Is What You Get - WYSIWYG). For example, if your army includes a Space Marine equipped with a Meltagun, the model must be equipped with a Meltagun. Equipment such as Frag Grenades that are included on every model within a unit, but not included on every model of that type, need not be modelled.

### 2.3 Converted Models/Units

Many players “scratch build” or heavily convert elements of their model collection, and these activities are a hallowed part of Warhammer hobby history. For the sake of fairness, any conversion should be comparable in size to the most current version of the model they represent. You may not gain a benefit from converted models, but may incur penalties.

For any converted or scratch built models, you must seek permission from [whworldevents@gwplc.com](mailto:whworldevents@gwplc.com) including photos of the models in question where possible, at least two weeks before the event.

If you do not obtain permission for conversions before this date, you run the risk of them being removed from play, or possibly incurring score penalties.

**A Note on Basing:** Many models are no longer produced on the bases they originally came with. Wherever possible, base your models according to their current boxed kit.

As with other exceptions, if you wish to have a model reviewed, please email [whworldevents@gwplc.com](mailto:whworldevents@gwplc.com) for approval.

## 3.0 TOURNAMENT FORMAT (cont.)

### 3.1 Scoring

At the end of each game, you and your opposing team will need to record your results on your event card, and then hand in your results to the event staff at the same time. There will also be an option to record your results digitally. Details for this will be sent out to the players the week leading up to the event. Each game lasts two hours and forty five minutes, and once the game ends, you will have five minutes to record your result with the events team.

The overall winner will be determined by the number of victories achieved at the event. Teams will then be split by their strength of schedule followed by the total amount of Victory Points achieved during the event.

*A Note on Results Reporting. Many players around the world happily participate in independently-run, often local ranking systems. Where relevant (such as the ITC), we will submit results sorted by Generalship for these standings.*

### 3.3 Game Speed Milestones and Time

Rather than simply announcing the time remaining in each round, event staff will call time based upon the place in the game you should on average be at, and these will also be shown on the projectors in the gaming hall. These time calls exist to help keep the flow of play moving, and are not binding. For clarity, this provides each team with, on average, the following time breakdown for the typical game:

- **Pre-Game Mission, Review army lists:**  
5 Minutes (both teams)
- **Deploying models:**  
10 Minutes (both teams)
- **Playing your First Turn:**  
20 Minutes per team
- **Playing your Second Turn:**  
18 Minutes per team
- **Playing your Third Turn:**  
15 Minutes per team
- **Playing your Fourth Turn:**  
10 Minutes per team
- **Playing your Fifth Turn:**  
10 Minutes per team

The milestones for a round breakdown as:

- **2:45:00 remaining:**  
Start round (Formally)
- **2:40:00 remaining:**  
Complete pre-game discussions and decisions, including Secondary Objectives
- **2:30:00 remaining:**  
Deployment Complete, Begin Round 1
- **1:50:00 remaining:**  
First Battle Round Complete, Begin Round 2
- **1:14:00 remaining:**  
Second Battle Round Complete, Begin Round 3
- **0:44 remaining:**  
Third Battle Round Complete, Begin Round 4
- **0:24 remaining:**  
Fourth Battle Round Complete, Begin Round 5
- **0:04 remaining:**  
Do not begin a new Battle Round without Judge Permission

Judges have access to a variety of mechanisms for speeding up or ensuring game completion should milestones be repeatedly missed. All players are expected to finish their games, and to attend with an army list they feel comfortable playing a complete game within two hours and forty five minutes. You must not intentionally leverage the clock to disadvantage your opponent.

### 3.4 Event Awards

The Warhammer 40,000 hobby is multi-faceted; including social, gaming, and artistic components. With that in mind we will award the following prizes:

- ☒ First place for the team that ranks highest overall.
- ☒ Second place for the team that ranks second.
- ☒ Third place for the team that ranks third.
- ☒ Most Sporting Team for the team with the most Favourite Game votes, with highest overall ranking as the tiebreaker.
- ☒ Chaos Champions - For the team with the CHAOS keyword that ranks highest overall (that doesn't win another award).
- ☒ Imperium Champions - For the team with the IMPERIUM keyword that ranks highest overall ((that doesn't win another award)).
- ☒ Xenos Champions - For the team with AELDARI, TYRANIDS, T'AU EMPIRE, ORK and/or NECRONS keyword that rank highest overall ((that doesn't win another award).
- ☒ Alliance Champions - For the team that doesn't fall into the above keyword categories and ranks highest overall (that doesn't win another award).
- ☒ Favourite Army (1st, 2nd, 3rd) as voted by you, for the most impressive looking team army.
- ☒ Best Army (Judges Choice).

### 3.5 Pairings

Your opponent for your first game will be randomly determined. Subsequent rounds will be organised using a swiss system where teams are randomly paired against opponents with the same tournament points. If you ever find yourself facing off against a team you have faced previously please contact a member of the events team.

### 3.6 Best Army Painting Competition

The Events Team will nominate a shortlist of teams for the Best Army Competition. This is a prestigious award for hobbyists who manage to achieve a truly excellent standard of hobby consistently across their whole force. To be nominated for this award, we expect both members of the team to put in the time and effort to complete their hobby project. This means both players must build and paint their respective portion of the army. Doubles Events are unique in that some teams go to great efforts to create a cohesive force between them. This might be a common theme, complimentary colour choice, similar heraldry, or even just consistent basing. Peer judging will take place with the winning team earning the Best Army award.

The Events Team may specify additional requirements during the event for any unusual or particularly large entries. If you have any queries regarding the competitions, feel free to contact us before the event. Please note that to win any of our Painting competitions, each player must have built and painted the models themselves.

## 4.0 TERRAIN

### 4.1 Table Layouts

While each table may have a different aesthetic or theme, every table will use the same layout in any given round of the event. Additionally, this standard layout will change depending on the day of the event. The layout chosen for a given round will be determined based upon the Deployment Zone for a given mission from the Warhammer 40,000: War Zone Nachmund: Grand Tournament Mission Pack

These layouts change during the tournament for two primary reasons:

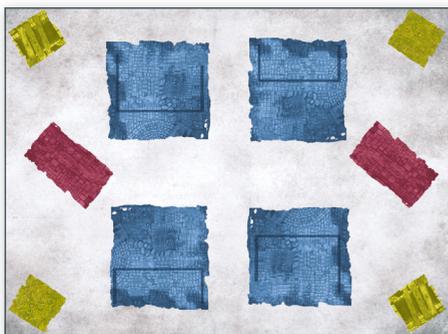

- 1) provide players with a varied experience throughout the event, as opposed to 5 rounds spent playing on exactly the same terrain format
- 2) ensure the placement, orientation, and function of each terrain piece is balanced for a wide variety of army types during each particular mission.

If, upon reaching your table, the layout does not closely match the required map, please adjust the terrain until it matches. If you or your opponent are uncertain whether the layout is precisely correct, please call a judge for assistance as needed.

## 5.0 POLICIES

### 5.1 Judges

Event staff will be prominently visible in the tournament hall throughout the event and hold the final say on all game rules and tournament issues. Individual rulings, however, are never binding precedent - it's a game, not a court of law. Rulings will always be based on correct rules interpretations rather than adhering to previous precedent. When calling for assistance, please be prepared to provide any relevant rules to the particular question.

*A Note on Active Judging:* At Warhammer World, judges are empowered to actively stop instances of illegal play, with or without a player's specific request for intervention. If a player has concerns at any point, they are always welcome and encouraged to call a judge. While we will not have judges at every table, and we cannot stop every instance of a minor misplay, our goal here is to make sure all the games at Warhammer World are enjoyable for everyone.

On a rare occasion, players may intentionally or unintentionally commit rules or sportsmanship fouls in the course of a heated or challenging battle. Behaviour such as bullying, rules abuse, moving models illegally, picking up dice before your opponent has the chance to see the results, lying to judges or opponents, or any other form of unethical or inappropriate conduct can result in substantial in-game penalties, automatic loss assessment, permanent removal of parts of your army for the duration of the event, or removal from the event itself.

### *Everybody Loses from Time to Time.*

Finally, be ready to lose a few games of Warhammer! It seems an odd thing to say, but it is in the nature of any event that only a few players (at most!) will finish the weekend without a loss. Barring ties, half of you will lose your very first game of the weekend, in fact! Winning with skill and grace is a rewarding and perfectly acceptable goal. Losing with skill and grace, however, is both more challenging and more laudable. These events present you the opportunity to build friendships with fellow hobbyists who share your interests - friendships you can renew and celebrate every time you travel to Warhammer World or local events. A single great friendship built out of your experiences at these will outweigh any number of individual victories across your battles this weekend. In fact, if you do your best, have a great time, and build some lasting friendships... you haven't really lost at all!

### 5.2 Conceding

We expect all players to see the game through to the very end and not concede, as doing so can impact tiebreakers and, ultimately, the final rankings. In the unlikely event that a player does concede before the game has reached its natural conclusion, then the conceding player earns a loss and zero points. The winning player records a major victory and maximum victory points for the rounds remaining.

Of course, if you have some kind of emergency that means you can't proceed, just let the event staff know right away.

## 6.0 HEALTH AND SAFETY

At Games Workshop, the health and wellbeing of our staff, their families and loved ones, and the wider community in which we operate is our top priority. When you attend one of our events, you can rest assured that we will be doing everything we can to make it as safe and enjoyable a time as possible.

At a minimum, Games Workshop will always follow government guidance in every area in which we operate. Where we feel we should include additional measures to further improve the safety of our community, we will.

Whilst we can't be certain what the exact rules will be for each of our events yet, at every event, you can certainly expect to see:

- ☒ Reduced capacities to help people can keep distanced where possible
- ☒ Organization to reduce crowding and bottlenecks in any particular area
- ☒ Measures to reduce sharing of equipment
- ☒ Sanitisation stations

Specific details will be communicated with all players closer to the event
